

## GOOD NEWS FROM AROUND THE CIRCUIT, as shared at February's Circuit Meeting.

**Levens:** The refurbishment of the building is nearly complete ...

Thanks to everyone who has helped make this happen. The church is excited to see what lies ahead as they offer the space for community activities. Thanks again go to Rev David for the worship CD's he produces every week which help a lot of elderly, isolated people stay connected to the church and for his on-line services.

**Stricklandgate:** The church has offered financial support towards the setting up of a new CAP debt centre in Kendal. CAP works with people who have debt problems, with the aim of helping them become debt free.

**Arnside:** The Nativity Trail set up around the village was a great success. People could use QR codes to learn about the nativity story and the codes had more than 5000 hits.

**Kirkby Lonsdale:** The churches in and around Kirkby ran a number of activities during Advent which were greatly appreciated by many in the community. This included posting 1100 cards around the town and some of the villages, Advent window displays, and Jesse Tree craft activities amongst other things. The zoom church Christmas party was a success – there were some very imaginative silly games played!

**Sandylands:** Continuing thanks go to Karen and Sally, who coordinate Messy Church, for all the time and effort they put into keeping families in touch and offering a Christian presence. Thanks as well to Rev Richard Bielby for leading the family service at Christmas.
